MADE IN GERMANY. FITTED ACROSS THE WORLD.

KALDEWEI design products appeal where superior quality is valued. Small wonder then that you will find our products in excellent grand hotels, upmarket private residences and even exclusive cruise ship suites – anywhere around the globe. As a worldwide partner, we meet even the most ambitious requests of the world's leading architects and clients. From the planning to the finished project: bathroom solutions from KALDEWEI appeal with innovative ideas and exquisite designs.

But that's not all: because of its superior properties KALDEWEI steel enamel scores equally at global level – especially in places such as care facilities. The reason being, our unique material guarantees absolute hygiene. Even the smallest dirt particles are easily wiped away with just a damp cloth. We set the bar high with standards based primarily on one aspect: our customers and their ideas – wherever they are in the world.

SUPERIOR TODAY, EVEN BETTER TOMORROW.

KALDEWEI steel enamel: for us, it's the most state-of-the-art and best material for your bathroom. Made from natural raw materials, 100% recyclable and sustainable: that makes it the most up-to-date answer to today's challenges.

And to ensure it stays that way, we apply our decades of expertise to continuously enhancing both the formula

and our manufacturing techniques. We develop special anti-slip finishes for groundbreaking innovations and constantly come up with new, compelling colour variations.

Experience the fascination of KALDEWEI steel enamel for yourself! We promise that you'll love it just as much as we have been doing for over 100 years.

KALDEWEI STEEL ENAMEL WINS HANDS DOWN.

Choosing KALDEWEI is only logical because if you consider everything that the surface of a fine bathroom object has to deal with over the course of decades, there is only one material that can really stand up to it all and keep its value: KALDEWEI steel enamel.

Also logical: If you're as convinced about your material as we are, you will be happy to give a 30-year warranty. So that you can enjoy your KALDEWEI bathroom objects for years to come, and enjoy the satisfying feeling that you have made the right decision.

Processing with absolute precision.

Flawless surfaces thanks to enamelled steel.

BEAUTIFUL SHAPE FOREVER

Temperature fluctuations don't affect KALDEWEI steel enamel at all. That prevents cracks and moisture damage.

CHEMICAL RESISTANT

The surface is resistant to perfume, bath additives and conventional household cleaning agents.

UV RESISTANT

Our KALDEWEI steel enamel does not fade or yellow, and always keeps its original colour.

100% SUSTAINABLE

Bathroom products made of KALDEWEI steel enamel consist of glass and steel and are produced from natural raw materials that can be fully recycled.

SCRATCH AND IMPACT RESISTANT

Because it is far harder than acrylic, KALDEWEI steel enamel is particularly resilient.

HEAT RESISTANT

Burning or glowing objects leave no burn or smoke marks.

EASY TO CLEAN AND HYGIENIC

The vitreous surface is hygienic and easy to clean.

ACTING SUSTAINABLY IS SECOND NATURE TO US.

If you have been transforming natural raw materials into long-lasting, timelessly beautiful products for over 100 years and if, as a family-run business you think in terms of generations, then the subject of sustainability is firmly and immutably enshrined in your DNA. Take our enamelled steel, for instance – a future-proof material for bathroom products that is 100% recyclable and even consists of 20% recycled steel. With a material like that, it is only logical that we make our production and transport just as gentle on resources.

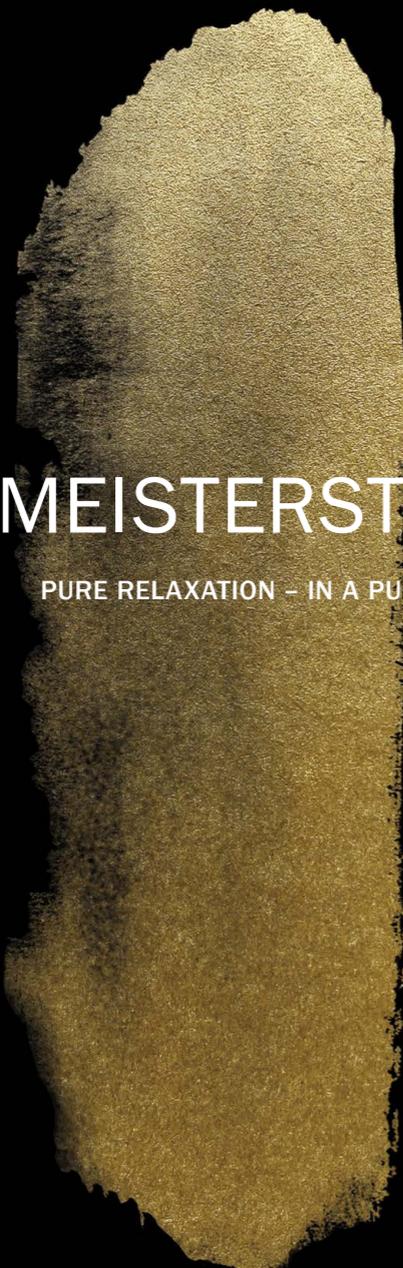

In 2017 KALDEWEI received the Green Good Design Award for ecologically outstanding products. And then, not least, there's our 30-year warranty which sets products made of our material apart from plastic alternatives and makes them the ideal choice for eco-friendly, climate-neutral building. In fact, sustainability even pays off as an element of green building certification to, say, LEED standard. And don't forget that thanks to the long lifecycle, our products retain their value for many years.

WORKING TOGETHER TO PRESERVE OUR ENVIRONMENT.

As a family business, however, we are also thinking even further ahead – about future generations and the kind of environment we will be bequeathing to them. That is why we have made a commitment to preserve the ocean habitats that connect all of us and which are threatened by the rapidly swelling tide of plastic waste. As a partner of the WWF we are supporting a model project that will lastingly and effectively reduce the amount of plastic waste entering the oceans. The aim here is to make plastics too valuable to simply throw them away. For KALDEWEI this is a further, smarter step to a more sustainable future.

MEISTERSTÜCKE

PURE RELAXATION - IN A PURE DESIGN.

EMERSO
Built-In Washbasin

DESIGN

Arik Levy. The MEISTERSTÜCK EMERSO washbasin is the counterpart to the bathtub of the same name. Although built inversely, its design is equally subtle and harmonious. The washbasin's flowing lines appear to undulate; the internal shape of the washbasin seems to dissolve the boundaries between solid and liquid. Even the flush-

fitting outflow is positioned in such a way that it reinforces the impression of a fluid shape. Whether free-standing or inset countertop, the MEISTERSTÜCK EMERSO is an enhancement to even the most luxurious bathroom.

MODEL	MODEL NO.	VERSION	LENGTH (cm)	WIDTH (cm)	RIM HEIGHT (cm)
MEISTERSTÜCK EMERSO	3020	Freestanding	52	42	90
EMERSO Built-In Washbasin	3021	52	42	3,2	
	3022	72	42	3,2	

DESIGN

Arik Levy. Designed for a single bather, the MEISTERSTÜCK EMERSO bathtub is a luxury to be enjoyed entirely by oneself. Ergonomics and design are at one with each other in this freestanding bathtub. The new kind of fluid design with its undulating bathtub rim provides a natural

and comfortable place to rest one's head. The tapering fully-enamelled outer shape underlines the bathtub's sculptural nature, giving it the look of a modern work of art.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)
MEISTERSTÜCK EMERSO	1100	180	80	40

DESIGN

Anke Salomon. The charm of the freestanding MEISTERSTÜCK INCAVA lies in the subtle tension between the soft lines of the interior and the sensual geometry of the exterior. The reduced rim and

conically-shaped trim give the bathtub a surprising lightness. The design is perfected by the centrally-placed, flush-fitting, enamelled waste cover and the newly devised enamelled overflow.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)
MEISTERSTÜCK INCAVA	1174	175	76	42,5

DESIGN

Sottsass Associati, Milan. The seamless shape of the MEISTERSTÜCK CONODUO combines freestanding design with excellent bathroom comfort to produce the perfect symbiosis of clarity and serenity. The precisely executed bathtub cladding, the flush-fitting, built-in outflow, and the optimally positioned overflow knob are all made of superb KALDEWEI steel enamel, and accentuate the coherent look in the bathroom. Two identical back slopes and the centrally positioned outlet ensure a very special bathing experience – be it alone or à deux. For those who would like even more space in the bathtub, we now also offer a 180 x 80 cm version.

CENTRO DUO OVAL

MEISTERSTÜCK 

DESIGN

Sottsass Associati, Milan. The freestanding MEISTERSTÜCK CENTRO DUO OVAL is crafted with enamelled panelling as its defining aesthetic feature. Made of superior KALDEWEI steel enamel, the seamless bathtub with overflow knob and flush-fitting waste is an eye-catcher in any bathroom. Its special depth of 47 cm along with two identical backrests ensure relaxing and comfortable bathing – even for two.

16/17 CENTRO DUO

MEISTERSTÜCK 

DESIGN

KALDEWEI MEISTERSTÜCKE aim to make your bathroom into a unique place. And that's another reason why they can be placed anywhere in the bathroom. Be it freestanding, wall-mounted or in a corner – they can fulfil just about any wish. In keeping with this thinking, we offer special versions of our MEISTERSTÜCKE with two or three-sided trim. The exquisite look is retained: fully-enamelled and seamless. This means that even those models that are not freestanding still preserve their clean-cut, minimalist lines.

DESIGN

Those who call their bathtub a “classic” can be fairly certain that they have found the optimum shape for time-less beauty. In fact, time has even matured our CLASSIC DUO OVAL so that its shape can now express its full potential. Seamlessly encased in KALDEWEI steel enamel

with an oval contour and conical external lines, it is the archetype of the freestanding bathtub. An absolute classic! And because it also wants to be a relaxed place for two people to bathe at the same time, this freestanding classic is available in two sizes.

CENTRO DUO OVAL

DESIGN

Sottsass Associati, Milan. Unpretentious and sophisticated elegance distinguish this range of bathtubs. The oval shape, the special depth of 47 cm, two identical backrests and central waste ensure that you can bath with a partner particularly conveniently and comfortably. An eye-catcher in any bathroom. The moulded panel, per-

fectly adapted to the shape of the bathtub, logically picks up on the design of this model and in so doing creates the option of experiencing design in the room with this freestanding bathtub. Also available with freestanding panelling (Model No. 127-7 and 128-7). Also available as a whirlpool.

DISCREET OPULENCE AVANTGARDE COLLECTION

INCAVA

DESIGN

Anke Salomon. The built-in version for the highly discerning. The narrow, precise wall of the tub surrounds the organically soft interior shape like a picture frame. The height of the edge is generous, the corner radius significantly rounder than in other KALDEWEI bathtubs. This lends the INCAVA Avantgarde a strikingly sculptural look,

setting it apart from the rest of the bathroom architecture. In contrast, the flush-fitting waste cover and the newly devised overflow – both made of KALDEWEI steel enamel – are superbly integrated. They round out the sensation of profound serenity and harmony created by the interior of the bathtub.

ELEGANT PURISM AMBIENTE COLLECTION

PURO DUO

DESIGN

KALDEWEI Design. One of the basic principles of modern architecture and interior design is reducing all elements to their core. The clean and unpretentious design of PURO also follows this approach. As a one-person bathtub it fulfils the desire for a high-quality yet affordable design. The PURO has a particularly generous length for extraordinary high levels of bathing luxury.

The purist design of the PURO DUO follows the approach of reduction in the same way and is the logical continuation of the successful PURO series. It fulfills the desire for high-quality and timeless design for bathing for two. The inside of the PURO DUO is especially long to offer exceptional bathing comfort.

Also available as a whirlpool.

PURO SET WIDE

AMBIENTE ◆◆◇

ELEGANT PURISM AMBIENTE COLLECTION

PURO SET WIDE

DESIGN

PURO SET WIDE combines bathing and showering in one tub in a completely new way. The centrally-positioned waste and overflow is not only an attractive design feature but allows for ample freedom of movement while showering. The reduced tub depth makes it easy to

get in and out and reduces water consumption while bathing. The rim of the tub is flat and wide all the way round so taps and accessories can be placed anywhere – entirely in keeping with your personal preferences and the available space.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)	RIM HEIGHT (cm)	GRIPS
PURO SET WIDE right	667	170	75	38	3,2	◇
PURO SET WIDE left	668	170	75	38	3,2	◇

34/35 RONDO

AMBIENTE ◆◆◇

DISCREET OPULENCE AMBIENTE COLLECTION

RONDO

DESIGN

Phoenix Design. The rounded ends in the interior of the RONDO bathtubs provide plenty of space for the bather's upper body and the wide armrests provide extra bathing luxury. To begin with, the shape of the classic RONDO

rectangular bathtub offers a particularly large volume. The rounded ends create sufficient space to stretch out luxuriously. Also available as a whirlpool.

UNIVERSAL GRIP TYPE A

CAYONO

DESIGN

KALDEWEI Design. The CAYONO is deliberately designed in lines coordinated with the stylistic features of modern architecture. Straight lines, small radii and a consistent geometry signal clarity, harmony and stringency in an ever more complex and fast-paced world. By the same

token, CAYONO is designed specifically for everyday use. Steep sides ensure a generously dimensioned bathtub interior – even with smaller sizes. The flat bathtub bottom allows for comfortable showering.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)	VOLUME (litres*)	WEIGHT (kg**)	GRIPS

SHOWER SOLUTIONS

SHOWERING AT THE HIGHEST LEVEL:
FLOOR-LEVEL.

AROUND
5,000 COMBINATIONS

20 dimensions
17 colours
5 design covers
3 surfaces

Design cover, brushed stainless steel

Design cover, polished stainless steel

Design cover, polished gold

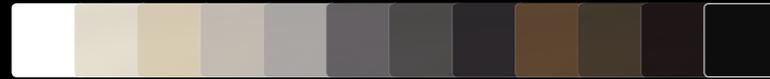

Design cover, brushed rose gold

Design cover, powder-coated alpine white

CAN BE COMBINED AT WILL WITH 5 DESIGN COVERS.

As if aesthetic perfection was not enough, the NEXSYS offers almost infinite possibilities of variation. Five different design covers alone can be combined with a choice of 17 colours for the shower surface.

Add to this one of the three surface finishes and enhance your bathroom with a NEXSYS of unique customised appeal.

DESIGN

KALDEWEI Design.

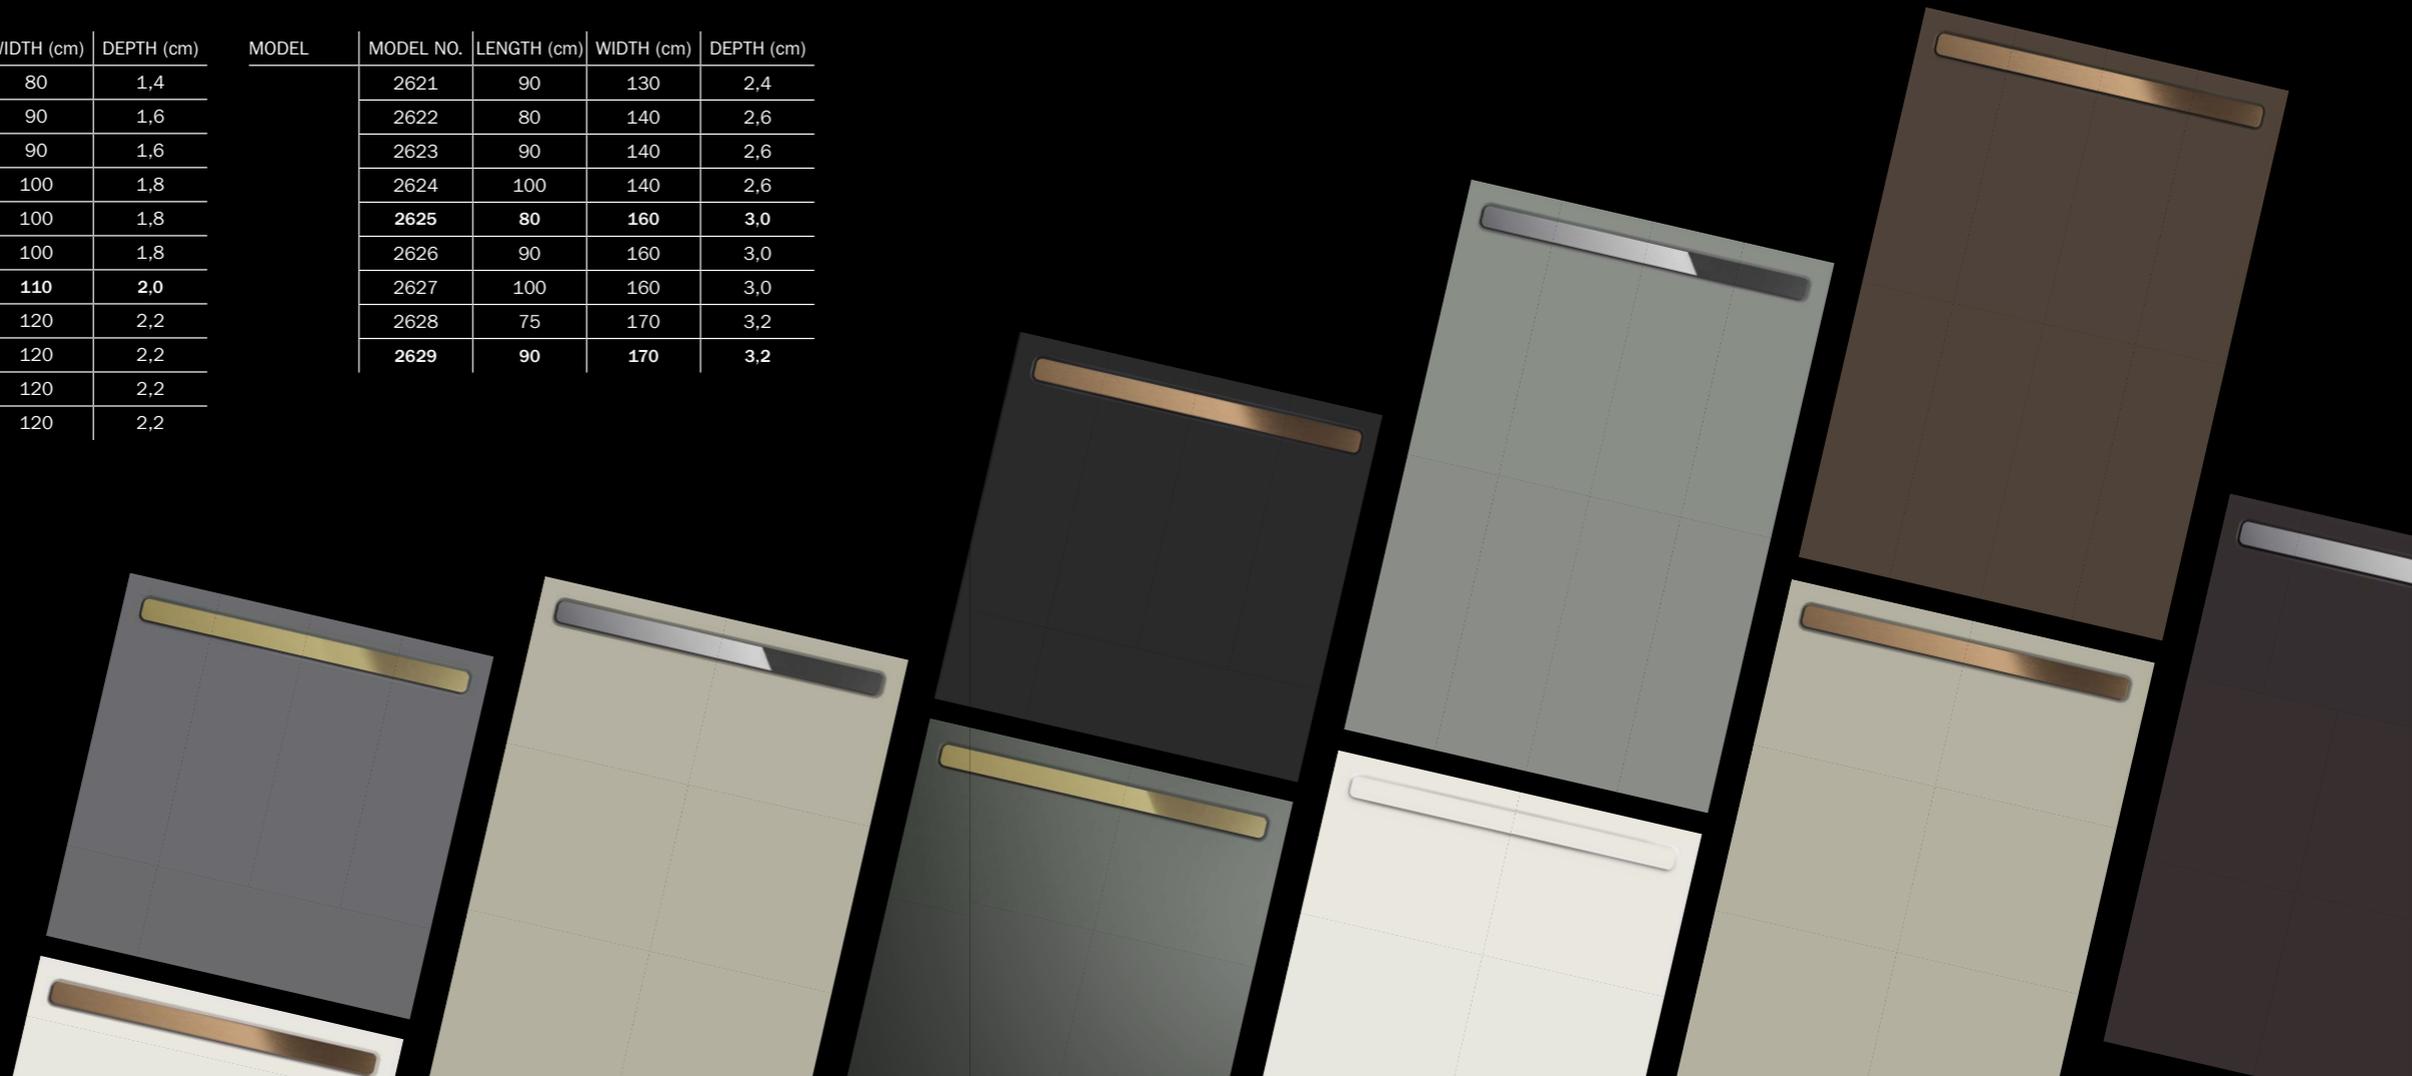

Instantly recognisable as revolutionary: no shower surface has ever been so pure, minimalist and irresistibly attractive. Because the NEXSYS is a system of shower surface, waste channel and sloping support element. And it is only like this that a shower surface can be built with what appears to be a virtually continuous channel, similar to the waste channels of tiled showers. NEXSYS's

advantages: it not only looks more modern and upmarket but also has a lower installation height than most tiled solutions, is more robust and longer-lasting and, as a seamless surface, protects effectively against moisture penetration. Even installation is ingeniously simple: put the system in place – all done! No complicated slope screeding, no installation frame. NEXSYS. The revolution in the bathroom.

SUPERPLAN PLUS

AVANTGARDE ◆◆◆

Enamelled covers for waste fitting KA 125 are available in different colours to match the shower surface / alternatively, chrome waste cover

DESIGN

KALDEWEI Design. Revolutionising purism. The new enamelled floor-flush waste cover blends in harmoniously with the overall design of the SUPERPLAN PLUS and thus emphasises the purist nature of this particular enamelled shower surface. With an installed height of only 109mm (including KALDEWEI special waste fitting KA

125) the SUPERPLAN PLUS is extremely flat and ideally suited for floor-flush installation. It is available in 14 different sizes and can be easily and harmoniously integrated into any room situation. Thanks to its exclusive design, the new SUPERPLAN PLUS makes taking a daily shower a new experience.

DESIGN

The new way of entering the world of floor-level shower surfaces is called CAYONOPLAN. Thanks to 19 different dimensions, its waste outlet at the side and the ultra-flat tray support for the easiest possible assembly, the CAYONOPLAN is the ideal solution. With a rim height of 32 mm and/or 40 mm for formats with side lengths

of over 120 cm, it can be perfectly installed on top of tiles, although floor-level installation is also possible. As the perfect match for the CAYONO bathtub and the PURO washbasin, the CAYONOPLAN rounds off bathroom design.

Enamelled covers for waste fitting KA 90 are available in alpine white to match the shower surface / alternatively, chrome waste cover

DESIGN

Streamlined design and plenty of standing room, but without taking up too much space. There are lots of reasons why you should start your day with ZIRKON – the elegant quadrant shape, for example, that allows intelligent installation even in the smallest space. Also, not

forgetting that this enamelled shower surface with its waste positioned at the side is available in many sizes and depths. Thanks to the large number of different dimensions the ZIRKON enamelled shower surface fits seamlessly into any space.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)	DEPTH (cm)
ZIRKON	501	90	75	3,5
	600	80	80	3,5

THE DESIGN SOLUTION FOR KALDEWEI FLOOR-LEVEL SHOWER SURFACES.

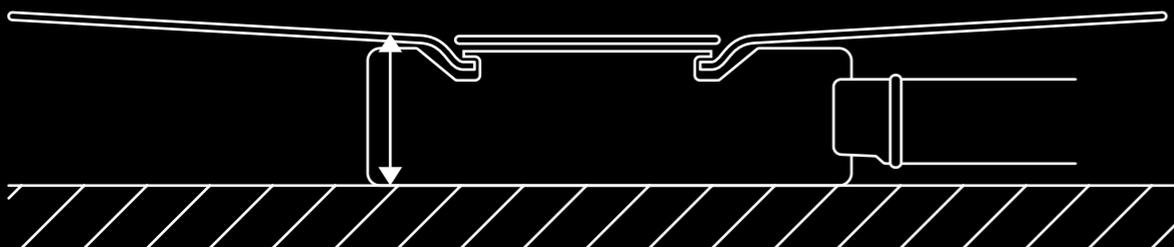

The demand for floor-level showers in new buildings and renovations is high. Low floor screed thickness can often be a problem. That is why KALDEWEI has developed a new generation of patented waste fittings – the innovative KA 90. Depending on the required

drainage capacity and the thickness of the floor screed, you can choose from four models. Combined with the flat-fitting, enamelled shower surfaces, this is a good solution for floor-level installation.

The enamelled waste cover for KA 90

The new, enamelled waste cover enhances the KALDEWEI shower surface as an absolute design highlight. Made of the same unique material and style of KALDEWEI steel enamel, the cover integrates fully into the design of the shower surface for an aesthetically compelling visual statement. Needless to say, the

enamelled waste cover is also available in the KALDEWEI colours and for the KA 90 fits all KALDEWEI shower surfaces in the CAYONOPLAN, SCONA, SUPERPLAN, SUPERPLAN XXL, DUSCHPLAN, DUSCHPLAN XXL, ARRONDO, CORNEZZA, FONTANA, ZIRKON ranges.

KA 90 with enamelled waste cover with chrome waste cover

- Fitting height of only 81 mm incl. waste cover
- Horizontal connection
- Connection diameter of 50 mm
- Conforms to DIN EN 274 (certified by the German inspection assoc. TÜV Rheinland) with 50 mm water seal
- Total height with SCONA of only 103 mm

KA 90 EXTRA FLAT with enamelled waste cover with chrome waste cover

- Fitting height of only 70 mm incl. waste cover
- Horizontal connection
- Connection diameter of 50 mm
- Does not conform to DIN EN 274 (with 30 mm water seal)
- Total height with SCONA of only 92 mm

KA 90 ULTRA FLAT with enamelled waste cover with chrome waste cover

- Fitting height of only 61 mm incl. waste cover
- Horizontal connection
- Connection diameter of 40 mm
- Does not conform to DIN EN 274 (with 30 mm water seal)
- Total height with SCONA of only 83 mm

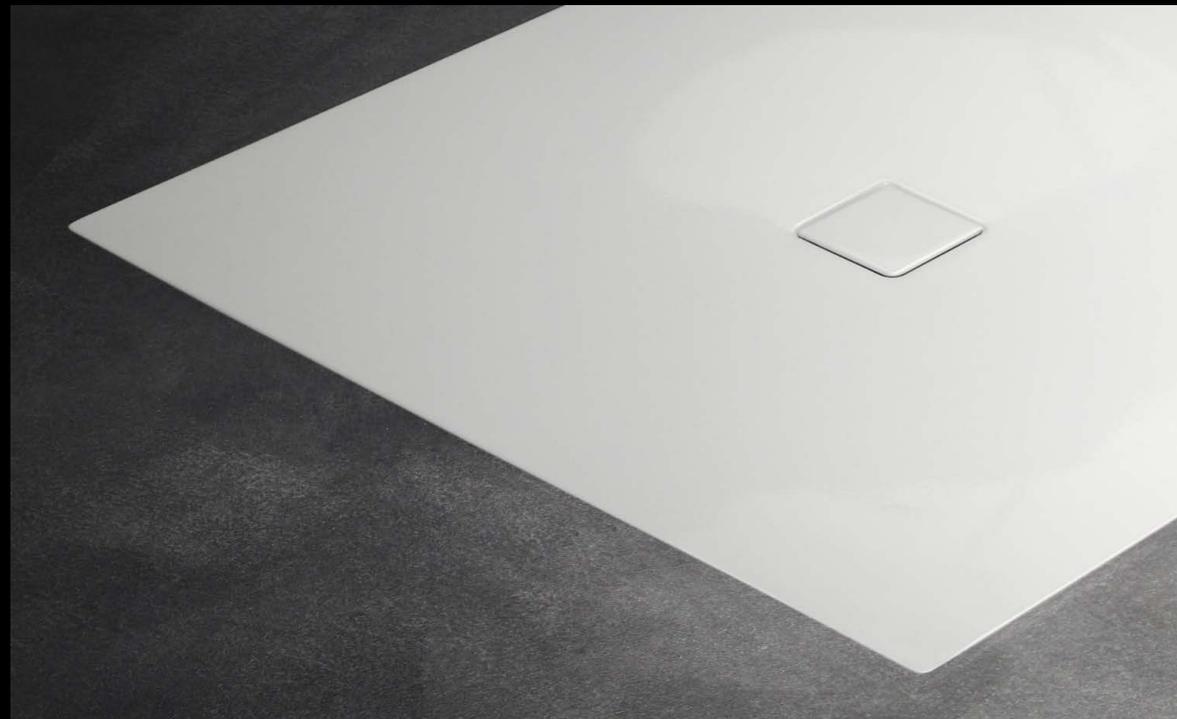

KA 90 VERTICAL with enamelled waste cover with chrome waste cover

- Fitting height of only 81 mm incl. waste cover
- Vertical connection
- Connection diameter of 50 mm
- Conforms to DIN EN 274 (certified by the German inspection assoc. TÜV Rheinland) with 50 mm water seal
- Total height vertically (with floor-level waste fitting) of only 49 mm

REMARKABLE DESIGN – REMARKABLY THOUGHTFUL. FOR CONOFLAT AND SUPERPLAN PLUS

The patented waste fittings KA120 and KA125 captivate with looks and performance. The flush cover made of KALDEWEI steel enamel appeals with a harmonious design and a high level of comfort. Minimum heights without compromising on drainage capacity.

- Complete set with enamelled waste cover
- Flush cover for maximum comfort underfoot and stability
- Easy to clean
- Optionally with hair catcher
- Drainage capacity conforms to DIN EN 274 (confirmed by TÜV Rheinland)

Integrates harmoniously: the KA 120

The new KA120/125 FLAT variant is a thoughtful complete solution. Designed specifically for low total heights, it is an asset especially in renovations. Not only that but the waste fitting allows for universal and flexible use – only 1 model enables 5 different versions:

- 1 – In combination with ESR FLOOR-LEVEL
 - 2 – In combination with any other KALDEWEI installation system
 - 3 – for outlet DN 40
 - 4 – for outlet DN 50 (includes accessory adapter)
 - 5 – with integrated anti-seepage connection
- Bathroom design and installation has never been easier.

**KA 120
FOR CONOFLAT**

- Fitting height of only 83mm
- Drainage capacity: 0,85 l/s (measured to DIN EN 274)
- Total height of only 107mm

**KA 125
FOR SUPERPLAN PLUS**

- Fitting height of only 83mm
- Drainage capacity: 0,85 l/s (measured to DIN EN 274)
- Total height of only 109mm

**KA 120 VERTICAL
FOR CONOFLAT**

- Fitting height of only 83mm
- Drainage capacity: 1,4 l/s (measured to DIN EN 274)
- Total height vertical (with floor-level waste fitting) of only 49 mm

**KA 125 VERTICAL
FOR SUPERPLAN PLUS**

- Fitting height of only 83mm
- Drainage capacity: 1,4 l/s (measured to DIN EN 274)
- Total height vertical (with floor-level waste fitting) of only 49 mm

**KA 120 FLAT
FOR CONOFLAT**

- Fitting height of only 63mm
- Total height of only 87mm
- Designed specifically for low total heights
- an asset in renovations
- for universal and flexible use
- 30 mm water seal height

**KA 125 FLAT
FOR SUPERPLAN PLUS**

- Fitting height of only 63mm
- Total height of only 89mm
- Designed specifically for low total heights
- an asset in renovations
- for universal and flexible use
- 30 mm water seal height

WASHBASINS

MADE FOR HIGH STANDARDS - AND FOR ETERNITY.

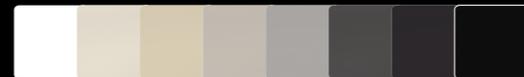

MIENA

The round bowls of the MIENA line appear delicate, almost fragile. The contours run in a single gentle and harmonious curve towards the waste outlet. The resulting reduced footprint gives the bowls an even more weightless look. You almost get the sense that they are floating on the given undercounter.

MODEL	MODEL NO.	Ø
MIENA Bowl	3180	45
	3181	38

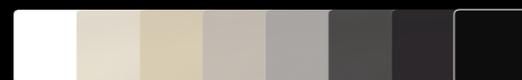

MIENA

The angular MIENA bowls are just as delicate but with a far more masculine look. Comparatively small radii, the only partially rounded contours and the square waste cover accentuate this effect – and extend the spectrum of the bowl family in the most elegant way.

MODEL	MODEL NO.	LENGTH (cm)	WIDTH (cm)
MIENA Bowl	3184	40	40
	3185	58	38

CENTRO DUO OVAL

DESIGN

Anke Salomon. The minimalism and simple elegance of the CENTRO bathtub family have been transferred here to the washbasins. Taking the circle as the basic shape, a very special geometry was produced – with soft radii and flowing contours. Apart from the round enamelled waste cover and the invisible overflow, the generous

dimensions of the washbasin surround are particularly striking. These lend the washbasin a distinctive character that stands out both in modern bathroom settings and traditional interiors – irrespective of which fittings you choose.

CONODUO

DESIGN

The family relationship with the CONO bathtubs and shower surfaces cannot be overlooked: Made of superb KALDEWEI steel enamel, the aesthetic quality and user-friendliness of these washbasins combine to produce the perfect symbiosis of clarity and serenity. The square, enamelled outflow accentuates the underlying geometry

of this sublime washbasin. In addition to its exceptional design, it captivates with a special technical feature: the overflow is invisibly integrated into the run-off support. There is no overflow hole to detract from the design's clean lines. The CONO washbasin thus exudes perfect elegance and harmony.

PERFECT MATCH

SCONA

SILENIO

DESIGN

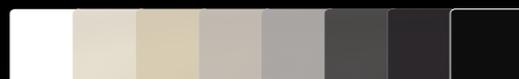

Anke Salomon. The sensually modern design of the SILENIO series of washbasins distinguishes itself through its exciting tensions: The soft, organic interior shape culminates in a narrow, precise washbasin lip – with a straight-lined, geometrical external shape. This, combined with the unadorned surround, produces a

restrained yet extraordinary washbasin. The SILENIO product series offers the washbasin to go with the SILENIO AMBIENTE bathtub. Together with the SCONA shower surface, they form a harmonious bathroom, fitted out entirely with KALDEWEI steel enamel.

KALDEWEI SOLUTIONS

CHOOSE FROM A MULTITUDE
OF SURFACE FINISHING AND ACCESSORIES.

SKIN TOUCH. THE PROMISE OF BEAUTIFUL SKIN.

SKIN TOUCH offers luxurious bathing with nourishing care: ganz natürlich mit naturally revitalising the skin with the infusion of pure oxygen. For the revolutionary beauty effect SKIN TOUCH enriches the water with millions of micro sized air bubbles that are up to 100 times smaller than those in whirl baths. The bubbles

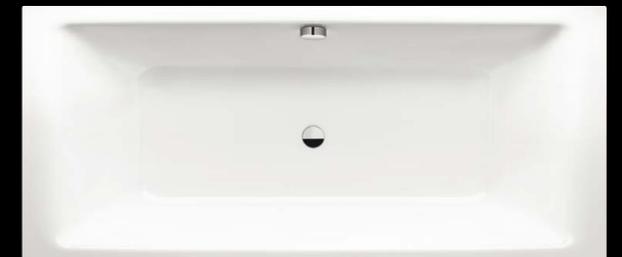

disperse evenly through the tub like a delicate bath milk, softly caressing the body and invigorating the skin cells for a luxurious deep treatment. The result is supple and rejuvenated skin that feels velvety-soft and smooth from head to toe – a spa effect that beautifies the skin with every bath.

As an optional extra, the exclusive SKIN TOUCH transforms KALDEWEI bathtubs into a veritable fountain of youth.

THE BATH AUDIO SYSTEM

With the new SOUND WAVE, KALDEWEI offers an innovative bathroom audio system. The SOUND WAVE components, including the Bluetooth® receiver, are concealed in the bath. This acts as an excellent sound box and provides pleasant acoustics of the highest quality. SOUND WAVE can wirelessly play audio files from your smartphone, computer, tablet or any other Bluetooth®

enabled device. Experience the extraordinary sound under water and escape from everyday life.

Bluetooth® radio technology enables wireless connections to compatible devices. Bluetooth® does not require line of sight between the SOUND WAVE and the other device.

RELAX LOUNGER

The KALDEWEI relax lounge instantly turns a designer bathtub into a small wellness oasis. Relaxing on the fine fabric, you'll feel as if you're lying on the deck of an elegant yacht. In addition to its design qualities, the relax lounge offers a high level of flexibility. It consists of six elements, two of which are permanently connected to each other making it possible to use the relax lounge as three separate boards with varying applications: as a shelf while lying in the bathtub, or as a mattress to recline on. If the three separate boards rest on the bath-

tub together, they can be connected to create a large stable slip-resistant surface that sits firmly on the bathtub. Another connection between the relax lounge and bathtub can be made by attaching fastening buttons. In this way, bathtubs already installed can be retrofitted with the relax lounge. The weight capacity of the relax lounge is 130 kg and is supplied with a special cushion. Cushion size: 40 x 23 x 9 cm.

Relax lounge, sizes: 170 x 75 cm, 180 x 80 cm, 190 x 90 cm, 200 x 100 cm.

RACK to store the relax lounge and cushion.

The relax lounge is available in the following colours:

MULTIFUNCTIONAL CUSHION

What could be nicer after an exhausting day than to lie back, switch off and simply let all your cares drift away? With KALDEWEI's multifunctional cushion, this relaxing pleasure becomes reality. The cushions can be used in three ways. Positioned as a footrest or under the thighs, they prevent the body from sliding downwards in larger baths. Positioned as a neck rest they provide a comfortable support for your head and neck. Placed on the sides they act as an armrest.

BATHTUB CUSHION

The KALDEWEI bathtub cushion brings another level of comfort to the bathtub. Its flexibility and soft materials adapt perfectly to any shape of neck and bathtub. Its volume can be regulated with an air valve – similar to an air mattress. The skin-friendly fabric cover feels delightfully soft and is machine washable. A generous 50 x 30 cm, the cushion also supports the shoulder area and allows a variety of head positions.

WHIRLSYSTEMS

WATER, AIR AND WARMTH STIMULATE
A SENSUAL FEELING OF TOTAL RELAXATION.

VIVO TURBO AND VIVO TURBO PLUS

In today's fast-moving world, a relaxing whirlpool bath is a moment of inner harmony. You can forget your worries and experience the pure pleasure of water with all your senses. The whirl intensity in the VIVO TURBO ranges from a gentle stimulation of the sensory hairs to a powerful, large-surface massage of the skin, subcutaneous tissue and muscles. The special feature of the VIVO TURBO is the addition of air, which can be integrated into the system while maintaining its outstanding hygienic standards. The VIVO TURBO PLUS individually adjustable whirl programmes round up this complete whirlpool experience.

VIVO VITA

One of the best counterbalances to the stress of everyday life is weightless floating in your whirl bath. In the VIVO VITA whirl system, a pleasant sparkling air stream flows through the water. Pre-warmed air rises from the base in tiny air bubbles. At the same time, numerous bubbles stimulate the nerve endings in the skin, which feels like a pleasant full-body massage. This soft massage has a relaxing and soothing effect on your mind. In addition, the cleaning effect of the tiny air bubbles is significantly higher than that of a conventional bath. Whirl intensity can be smoothly adjusted using the bath control panel, from the soft stroke effect to a lasting effect of stimulating vibration and shaking massage.

VIVO AQUA ECO AND VIVO AQUA

The VIVO AQUA ECO is a perfect introduction into the KALDEWEI whirl world. In this whirl system, water massage jets are targeted directly at your body through four or six nozzles (depending on bath design). Air can be optionally added to massage jet after the Venturi principle for a pleasant, massaging pressure on your skin and base layer. The intensity of the addition of air can be smoothly adjusted by the turn knob. In the VIVO AQUA whirl system, water massage jets are targeted directly at your body through six or eight nozzles (depending on bath design). Air can be optionally added to massage jet after the Venturi principle for a pleasant, massaging pressure on your skin and base layer. Massage effect can be smoothly increased to receive a soft vibratory massage with relaxing depth effect.

VIVO VARIO ECO AND VIVO VARIO PLUS

The VIVO VARIO ECO system ideally unites the benefits of air and water. An especially quiet blower whirls tiny air bubbles up from the floor jets for a caressing massage all over the body. At the same time, water streams from paired side jets to deeply massage the skin and muscles. The whirl intensity can be infinitely adjusted using the bath control panel. In VIVO VARIO PLUS, the combined effect of floor and side jets is taken a step further. While bubbles rising from the floor jets create a tingling feeling we call the KALDEWEI champagne effect, the rotating side jets provide skin and muscles with a pleasant massage. Additional jets integrated into the foot reflex zone and lumbar region ensure a relaxing, whole-body massage. All functions in the VIVO VARIO PLUS can be operated using the convenient Touch Display. Four favourite settings can be stored in the Touch Display and called up at any time.

Side jet in VIVO TURBO and VIVO TURBO PLUS.

Floor jet with air in VIVO VITA and VIVO VARIO ECO.

Side jet with air mixture in VIVO AQUA ECO, VIVO AQUA and VIVO VARIO ECO.

Microjet with air mixture in VIVO VARIO PLUS.

Rotating side jet with air mixture in VIVO VARIO PLUS.

Floor jet with air and KALDEWEI champagne effect in VIVO VARIO PLUS.

With the VIVO TURBO equipment, the whirling intensity can be smoothly adjusted.

The VIVO TURBO PLUS comfort feature offers individual control of each jet in addition to the basic set of functions.

In the VIVO VITA the whirl operation and underwater light fitting can be controlled.

VIVO AQUA System regulates also the spectral light and an automatic disinfection system.

In the VIVO VARIO ECO, the whirling intensity of the side and floor jets can be smoothly adjusted.

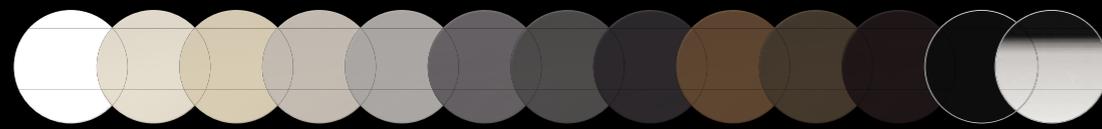

In the VIVO VARIO PLUS, all whirl functions can be easily finger-controlled.

AS UNIQUE AS OUR CUSTOMERS: OUR COLOUR OPTIONS.

The collection of matt colours underlines the special character of our shower surfaces, setting new standards in sensory awareness and quality. In keeping with the current trends in tiling, the colours

of the flush-fit showers in the COORDINATED COLOURS COLLECTION are perfectly coordinated to the tile colours available in the shops.

PRODUCT CONFIGURATOR

Customise a bathtub, shower surface or washbasin to meet your own requirements and select from different models, sizes, colours and special features.

Plan and create your personal bathroom solution with KALDEWEI Digital Services at www.kaldewei.com.

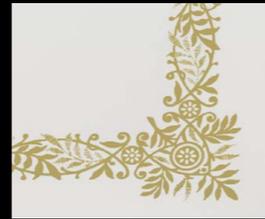

DECORATIVE AND CREATIVE ACCENTS IN THE BATHROOM

When design and material leave nothing to be desired, the only desire left may be for even more individuality. The KALDEWEI range therefore includes delicate ornamental patterns that are guaranteed to add a personal touch to any bathroom. "Lily" is a subtle floral pattern that is available for selected KALDEWEI bathtubs and floor-level shower surfaces. The organic design of the

decoration makes enamelled shower surfaces with KALDEWEI lily pattern the perfect match for bathrooms with natural floors of wood or stone. And for an extra hint of glamour, the exclusive 24-carat pure gold ornamentation upgrades an alpine white shower surface into an individual designer shower. The ornamentation can even be customised on request.

The discreet lily pattern brings a hint of the exotic to every bathroom.

CONOFLAT (Model No. 786) with gold ornamentation.

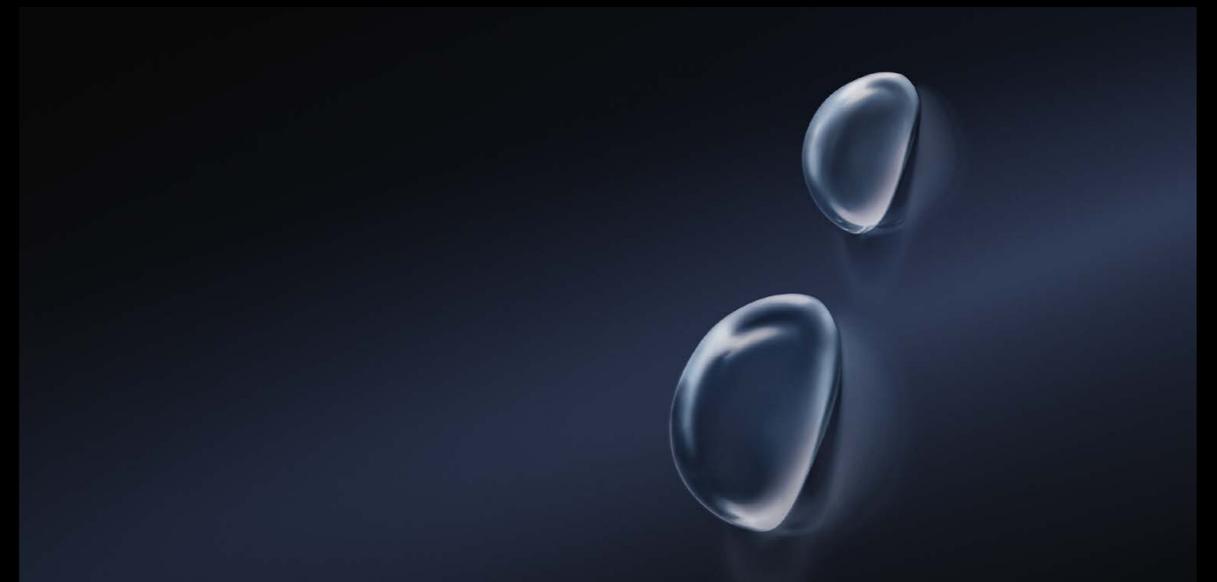

SUPERPLAN (Model No. 407) with "lily" decoration.

SURFACE – EASY-CLEAN FINISH

With the optional easy-clean finish from KALDEWEI, water simply runs off the bathtub or shower tray, taking almost all dirt and lime particles with it. Even dried-on watermarks and limescale residue can be removed easily. And because stringent cleaners are not needed – just a soft, damp cloth, the easy-clean finish has a positive effect on the environment, too. The easy-clean

finish is a surface finish that is permanently burnt onto the KALDEWEI steel enamel. It ensures unparalleled durability and long life. Even when the surface is wiped 1-2 times a day, the anti-stick properties remain unchanged 30 years later. The easy-clean finish is available for all KALDEWEI bathtubs and shower trays and comes as standard with whirlpool bathtubs.

KALDEWEI SECURE PLUS – ALMOST INVISIBLE

KALDEWEI steel enamel is at the core of the KALDEWEI brand. As a pioneer in the industry, KALDEWEI is continually enhancing this material. Above all, the focus is on anti-slip surface finishings. In a creative environment that responds to users' needs, KALDEWEI has opened a new chapter in surface finishing through the creation of the new KALDEWEI SECURE PLUS surface. The KALDEWEI SECURE PLUS enamel which covers the entire surface of the product, is virtually invisible, but

slip-resistant nonetheless. The German technical inspection association TÜV Rhineland has certified KALDEWEI's SECURE PLUS as having anti-slip properties compliant with quality class B for wet barefoot areas (DIN 51097) and quality class R10 for anti-slip characteristics in work spaces and working areas with an increased slip risk (DIN 51130). The surface itself has a subtle feel to it and comes in the refined look of the COORDINATED COLOURS COLLECTION.

SECURE⁺

PERFECT LOOK – ANTI AND FULL ANTI-SLIP

The anti-slip and full anti-slip enamel surfaces designed by KALDEWEI in its own laboratories are hardly visible and provide more safety when showering or taking a bath. They consist of a mixture which is permanently burnt into the KALDEWEI steel enamel. Due to a flatter matrix of the anti-slip nodules, the new (full) anti-slip system is even more friendly to your skin whilst incorporating the same anti-slip characteristics. It is also impressive with its excellent care properties.

Those who opt for KALDEWEI bathtubs and shower trays place great emphasis on aesthetics and design. The anti-slip and full anti-slip enamel surfaces are perfectly matched to the shape of the bathtubs and shower trays. Thanks to the recipe, optimal colour matching is achieved for the perfect look.

It is a matter of course for KALDEWEI to have the new anti-slip and full anti-slip enamel surfaces comprehensively and objectively tested to ensure greater safety in the bathroom for our customers.

The Rhineland TÜV organisation (German Technical Inspection Association) has certified KALDEWEI's anti-slip and full anti-slip systems as having anti-slip properties compliant with Quality Class B for barefoot wet areas (DIN 51097) and Quality Class R10 for anti-slip characteristics in work spaces and working areas with an increased slip risk (DIN 51130).

COMFORT-LEVEL AND COMFORT-LEVEL PLUS

Enjoying a relaxing bath depends not only on how comfortably you can recline, but also how deeply you can submerge your body in the water. With the COMFORT-LEVEL and COMFORT-LEVEL PLUS with integrated filling

function, the water depth can be increased by up to 50mm while bathing to suit personal preferences. All it takes is one turn of the lever for maximum bathing pleasure.

for COMFORT-LEVEL

VARIABLE OVERFLOW

To provide the highest degree of pleasure and relaxation, with the COMFORT LEVEL and COMFORT LEVEL PLUS, the bather's immersion depth can be infinitely increased by up to 50 mm – by simply turning the discreet lever.

FILL FUNCTION

In its new, astonishingly flat design too, only COMFORT LEVEL PLUS offers the combination of variable overflow, waste and fill. The fill function is invisibly integrated into the overflow, and the bathtub is filled very quietly.

WATERFALL BATHTUB INLET WITH AND WITHOUT OVERFLOW FUNCTION

Something for those who love bathing – the waterfall bathtub inlet by KALDEWEI offers a completely new kind of bathing experience. The inlet, which was designed by Phoenix Design, is integrated harmoniously in the side of the bathtub. Activating the water fill automatically opens the screen, and an even waterfall pours into the bathtub. The waterfall inlet with additional overflow function creates a quiet, pleasant atmosphere in the bathroom – with

no irritating elements at all on the inside of the bathtub. The contemporary “click-clack” system is a modern waste concept i.e. the water waste on the bottom of the bathtub opens and closes at a gentle touch of the valve ball. A wonderfully elegant solution that meets highest design standards and appeals in form and function. The combination waterfall inlet and “click-clack” is unique.

KALDEWEI PROFESSIONAL / DESIGN GRIPS

SAFELY IN, SAFELY OUT

If you wish to combine aesthetics with a high level of safety, you can have your bath fitted with a KALDEWEI grip. With the many different grip combinations available for your KALDEWEI bath, you're sure to find just the right one to fit your specific requirement.

The KALDEWEI Pool grip makes getting in and out of the bath more comfortable and safer than ever before. The high design ensures a firm hold without having to bend down to the edge of the bath.
