OUR GROUP Within A Stone's Throw From You

To better service our current clients and develop new relationships, we have expanded our network to cover six continents through sister companies, strategic partnerships and worldwide agents.

MARMI NATURAL STONE Atlanta, Usa

Based in Atlanta, Georgia, Marmi Natural Stone is the exclusive source for Marmonil products in the United States and one of the biggest suppliers of quality natural stone in the Southeastern region of the country.

MARMONIL SPA Cararra, Italy

As Marmonil's sister trading office in Italy, Marmonil SPA complements business operations. Established in 1985, the office gave the flagship a foothold from which to sell its products in Europe.

MARMOLES Y PIEDRAS DEL NILO Barcelona, Spain

Established in 2007, Marmoles y Piedras Del Nilo acts as a trading office in Barcelona for selling Egyptian stones to Spain. It offers consultation to architects, interior designers as well as other techincal experts in construction.

OUR QUARRIES

In our commitment to deliver the highest quality stones, we license 19 quarries in Egypt covering 7 types of granite and 7 types of marble.

With these exceptionally strong resources, we established Marmonil Quarrying in 2009 to run and control the earlier phases of our vertical integration in stone extraction. This investment assures our capacity to deliver premium quality stones in large volumes with color consistency. Our teams are always on the search for exploring new materials for our clients.

We pride ourselves in being the country's biggest and greenest producer of raw stone, using only sophisticated technology. We consult with expert geologists and conduct quarry planning to ensure that our extraction is done in a manner that is both cost-efficient and environmentally friendly.

OUR PROJECTS

With experience in some 70 countries, we have built and earned a strong international reputation as a reliable stone supplier for project delivery. We undertake projects ranging from residential to commercial and from public to private, with a portfolio that encompasses:

Trump Tower - Panama 160,000 m² Yas Mall - Abu Dhabi 92.000 m² Wynn Hotel - Las Vegas 47,000 m² Palm Island - Dubai 40,000 m² Heart of Doha Msheireb - Qatar 30,000 m² National Museum of Korea - Korea 12.000 m² Hilton Hotels - Kuwait & Egypt Four Seasons Hotels - USA, Cairo & Sharm 19,500 m² 87,000 m² Westin Hotel - Italy 4,000 m² Presidential Palace - Sudan 1,500 m² Cairo Airport Terminal II & III - Cairo 55,000 m² Cairo Underground Metro - Cairo 32.500 m² Nile Towers & Fairmont Hotel - Cairo Hilton Hotel - Cairo 27,000 m² 26.000 m² Grand Hyatt Hotel - Cairo 20.000 m² The Ritz Carlton Hotel - Cairo
St. Regis Hotel - Cairo
JW Marriott Hotel - Cairo
Grand Egyptian Musem - Cairo
Andermatt - Switzerland
USA Embassies - Jeddah, Taiwan, Latvia, 20,000 m² 15,000 m² 15,000 m² 28,000 m² Malta & Romania

Amongst the projects we are currently supplying:

Open Air Mall - Cairo 65,200 m² Four Seasons Hotel Ext. - Sharm El Sheikh 40,600 m

International Congress Hall - Sharm El Sheikh 12,000

Underground Metro L3 - Cairo Hilton Plaza Hotel - Hurghada

10,000

7,100 m

Trump Tower - Panama

THE STONE SPECTRUM

MARBLE ——

THE STONE SPECTRUM

GRANITE

Solid name... SOLID ROCKS

As is our confidence... so is our production capacity...

We specialize in the mass production of slabs, tiles and cut-to-size. Employing state-of-the-art equipment, we have maintained a tradition of constant innovation in our machinery with true dedication to staying on the cutting edge of technological advances.

For slabs polishing, we have invested in three complete lines for granite and two for marble. To guarantee premium quality, we procure the highest quality resins from our suppliers including epoxy, polyester and UV resins as well as an "anti-salt" treatment to counter the salt emissions of some stones. With our experience, we have the know-how of resin application and all due diligence necessary to ensure our clients get the highest quality slabs.

Gangsaws - Multi-Wire & Diamond Wires -Slabs Polishing Line - Treatments -Container Loading

Flatness Control

Visual Inspection

Tolerances Measurement

With an array of the latest technology and highest quality chemicals, we produce premium quality tiles ready for installation. With two complete lines for tile processing, fully automated epoxy resin ovens and UV furnaces, we guarantee tile quality in squareness, flatness and thickness tolerances. Post production, we separate tiles according to their colors and conduct a crate-by-crate packing.

Tile Lines - Block Cutters - Epoxy Oven - Color Selection - Packing Our wide range of machinery cover all architectural elements in any size, shape or edge profile. Our strength lies not only in the attention to detail in our tailored sizes, but in our ability to mass produce cut-to-size stone.
