PORCELAIN TILES

WALL TILES

ALL THE REAL FINISHES

Four finishes reproduce all the possible processes used on natural marble. The shiny Polished surface brings out the luminosity of the background. The Silk finish gives the room a velvety appearance accompanied by reduced light reflection. Matte lends itself best to interior design projects in commercial environments, while the refined Glossy finish of the wall tiles is perfect for environments with carefully studied surfaces.

Quattro finiture riproducono tutte le possibili lavorazioni del marmo naturale. La superficie Lappata specchiante esalta la luminosità del fondo. La finitura Silk conferisce all'ambiente un aspetto vellutato accompagnato da una bassa riflessione della luce. Il Matt si presta al meglio per progetti di interior design in ambienti commerciali, mentre la raffinata finitura Lucida del rivestimento è perfetta per ambienti dalle superfici curate nei minimi dettagli.

Quatre finitions reproduisent tous les traitements possibles du marbre naturel. La surface rodée réfléchissante augmente la luminosité de la base. La finition Silk donne à l'environnement un aspect velouté accompagné d'une faible réflexion de la lumière. Le Matt est le mieux adapté aux projets d'aménagement intérieur dans les environnements commerciaux, tandis que la finition brillante raffinée du revêtement est parfaite pour les environnements dont la surface est soignée dans les moindres détails.

Vier Oberflächenausführungen geben alle möglichen Verarbeitungen des Naturmarmors wieder. Die gespiegelte geläppte Oberfläche verstärkt die Helligkeit des Hintergrunds. Die Oberflächenausführung Silk verleiht der Umgebung einen samtigen Aspekt bei geringer Reflexion des Lichts. Die matte Oberflächenausführung eignet sich am besten für Innenarchitekturprojekte in Gewerberäumen, während die raffinierte glänzende Oberflächenausführung der Wandfliesen perfekt für Bereiche mit Liebe zum Detail geeignet ist.

Cuatro acabados reproducen todas las posibles elaboraciones del mármol natural. La superficie lapada reflectante aumenta la luminosidad del fondo. El acabado Silk da al ambiente una apariencia aterciopelada acompañada de una baja reflexión de luz. El acabado mate es el más adecuado para proyectos de diseño de interiores en ambientes comerciales, mientras que el acabado brillante refinado del revestimiento es perfecto para ambientes con atención al detalle.

Четыре варианта поверхности имитируют различные виды поверхностной обработки природного мрамора. Лаппатированная поверхность обладает зеркальным блеском, усиливающим яркость фона. Silk характеризуется приятной бархатистостью с мягким отражением света. Матовая прекрасно подходит также для коммерческих интерьеров. Глянцевая поверхность настенных плиток особенно эффектно подчеркивает даже самые маленькие детали.

CALACATTA DELICATO

Characterized by a warm, bright white background interrupted by subtle light gray veins, this variant recalls the precious Apuan marble used by Michelangelo, from whom it sometimes takes its name.

Caratterizzato dal fondo bianco caldo e brillante, interrotto da sottili e rade venature grigio chiaro in trasparenza, ricorda il pregiato marmo apuano utilizzato da Michelangelo, da cui in alcuni casi prende il nome.

Caractérisé par un fond blanc chaud et lumineux, interrompu par de fines et éparées veines gris clair en transparence, il rappelle le précieux marbre provenant des Alpi Apuane, utilisé par Michel-Ange, duquel il tire parfois son nom.

Gekennzeichnet durch einen warmen und leuchtend weißen Hintergrund, unterbrochen durch dünne und spärliche hellgraue durchsichtige Äderungen, verweist er auf den kostbaren, von Michelangelo verwendeten apuanischen Marmor, nach dem er in einigen Fällen auch benannt wird.

Caracterizado por un fondo blanco cálido y brillante, interrumpido por finas y escasas vetas de color gris claro en transparencia, recuerda al precioso mármol apuano utilizado por Miguel Ángel, por ello en algunos casos viene llamado Michelangelo.

Характеризуется теплым белым фоном с тонкими и редкими прозрачными прожилками светло-серого цвета. Напоминает ценный сорт мрамора Апуанских Альп, который использовал Микеланджело и поэтому иногда называют его именем.

CALACATTA PRESTIGIO

As with high-end Calacatta marbles, thin, sparse warm-gray and beige veins crisscross the warm white background, while some broader veins determine its value and beauty.

Come nei pregiati marmi Calacatta, sottili e rade venature di colore grigio caldo-beige solcano il fondo bianco caldo, mentre alcune venature più larghe ne determinano il pregio e la bellezza.

Comme dans les précieux marbres de Calacatta, des veines fines et éparées de couleur gris-beige chaud sillonnent le fond blanc chaud, tandis que quelques veines plus larges déterminent sa valeur et sa beauté.

Wie bei den kostbaren Calacatta-Marmoren, ist der warmweiße Hintergrund von dünnen und spärlichen Äderungen in warmer grau-beige Farbe geprägt, während einige breitere Äderungen seinen Wert und seine Schönheit bestimmen.

Como en los preciosos mármoles Calacatta finas y escasas vetas gris cálido y beige surcan el fondo blanco cálido, mientras que algunas vetas más anchas determinan su valor y belleza.

Как и в случае ценных сортов мрамора Calacatta, тонкие и редкие прожилки серого и бежевого цвета мягко выступают на теплом белом фоне, а более широкие придают ему особую красоту.
