

WVHA

HOME APPLIANCES

Who we are ?

WAHA Home Appliances was established back in 1991 in Port-Said city with one clear purpose in mind “to introduce premium home appliances to the Egyptian market”. WAHA decided to bring the best European companies to the market, started by Gorenje, the European home appliances manufacturer, followed by the giant ELBA "the well-known Italian cookers manufacturer". WAHA believes that its customers deserve the best product that meets premium standards, a durable product that is offering latest functionality and technology. We keep delightfully serving our customers with passion.

Life Simplified

One of Europe's leading manufacturers of domestic appliances. Established in 1950. We care about making your life more enjoyable. By understanding your needs and expectations, we strive to be the source of problem-solving solutions. We challenge ourselves daily to discover what more and sometimes what less we can do to make your life a little smoother. We design not only home appliances, but a holistic user experience. By delivering simple, intuitive solutions that help you reduce complexity, save time and enhance daily enjoyment.
