Spostaluce, the metal light source with fabric cable and side holes

Finish: Black pearl

Light bulb: With bulb

Product short description:

Take the light and move it wherever you want!

With Spostaluce, the metal light source with fabric cable, it doesn't matter where the connection is to your electrical circuit, because you only need to connect the cables and then just place the Spostaluce where desired on the wall.

The metal base is equipped with side holes, so that you can connect several Spostaluce in series. Choose from a variety of finishes that best reflects your style: from matt black or white metal for a modern and minimal look, or shiny copper and brass versions for a touch of Metalour!

This solution is ready to be installed and you can buy it already complete with a bulb: we have chosen the Globo LED G95 bulb with curved double loop filament for you, but you can alternatively have a look at our assortment of designer LED bulbs to find the one that best suits your style.
