Zinc-plated metal Adjustable Cable Clip for Creative-Tube

Product short description:

Creative-Tubes is Creative-Cables system of fabric-covered, extremely flexible and colourful conduits, perfect for creating unique visible electrical installations.

With the zinc-plated metal clip, using Creative-Tubes for your installations becomes even easier. This modern looking metal clip is suitable for the 20mm Creative Tubes and is easy to attach: the clip can be wrapped around the fabric covered conduit and hooks onto itself, allowing you to get a clean look with just one gesture, making installation easy even in the hard-to-reach places.

Discover the full range of accessories for Creative-Tubes to create a custom-made and unique conduits system.
