Zinc-plated metal threaded cable terminal for M20 thread Creative-Tube,
screw clamps included

Product short description:

Creative-Tubes is Creative-Cables system of fabric-covered, extremely flexible and colourful conduits, perfect for creating unique visible electrical installations.

The metal terminal is a basic accessory for connecting the 20 mm Creative-Tubes to junction boxes and metal clads, creating charming installations on your wall.

Made of metal with a zinc-plated finish, the terminal is mounted directly on the junction box and is equipped with screw clamps to secure the end of the Creative-Tubes.

Product description:
