## 01. WHY HÖLZER?

---

**Hölzer** is an authorized wood flooring boutique. The only flooring provider that's specialized in wood floorings, focusing on high-end German brands through many years of experience.

**Hölzer** offers the biggest variety of cost-effective, durable, resilient, and luxurious lifestyles through HDF and engineered wood floorings. Our business is committed to providing integrated flooring services.

We do that by offering competitive rates, high-quality products, and installments. Our highly trained technicians and qualified customer service play an extra role in ensuring a satisfactory experience from the moment you walk into Hölzer to the moment we get your project done.

02. The **biggest collection**  
of high-end German  
**FLOORING IN EGYPT**

■ ■ ■ Made in Germany

We earned authorization from exquisite German brands like Chevron Parquet and Mafi to sell and install their contemporary floors for our beloved people in Egypt. We're the only floors provider that's specialized in Wood Floorings with a capacity of more than 600 HDF and 150+ engineered wood flooring options.

### 03. Exclusive Distributor for mafi & Chevron

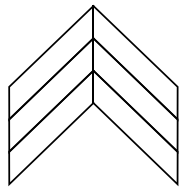

The highest quality of wood flooring solutions from Austria. Natural wood flooring options suitable for every need with guaranteed longevity. Up to 20-100 years of durability against bacteria, scratches, and damage. Enjoy the luxury of urban lifestyles with Mafi floorings that you can only find at Hölzer.

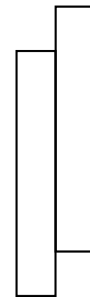

Prestigious high-end parquet flooring from Sweden offers the perfect quality flooring any place wishes for. Add a complement to your residential or commercial place with the never-ending classic Chevron Parquet designs that you can find only at Hölzer.

## 04. PRODUCT Overview

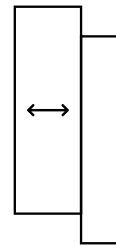

CHEVRON

Chevron wood flooring will give you the elegance and spacious V pattern, its seamless zig-zag tile pattern gives an optical illusion of wider space. They come in short and narrow planks that are cut at an angle and fitted together to form a true point, hence creating a continuous V pattern. Giving you the feel of a wider, dramatic, and spacious atmosphere.

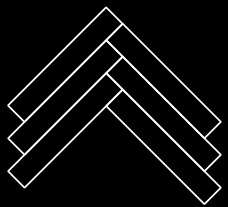

PLANKS

Wood flooring planks can come in various sizes, shapes, and can be installed in diverse designs. However, you need to consider the cost, waste, and durability of each pattern you consider. Linear or straight planks can be installed in an H pattern which is classic, durable, and easily installed.

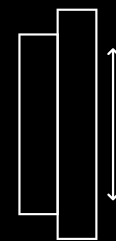

XL PLANKS

Wide planks that come in different shades and finishes from Germany to create the stunning floor setting you wish for. High-end quality planks that start from 5 inches wide and up to 12 inches according to your need. Our products endure the busiest lifestyle while bringing a spacious ambiance to your home at an affordable price.

HERRINGBONE

Herringbone planks are cut in rectangle patterns that are then placed to form a broken zigzag pattern. It's perfect for consumers who like a hint of personality and a diverse look in their place. Although the busy pattern of Herringbone seems unreliable for smaller places, it is what a small place needs to suggest capacity due to its wide overlapping patterns.

TALL

The clean and classic tall planks can boost an organized atmosphere. Choose between random patterns where the seams are at least 8" apart or tall straight planks placed in a linear pattern to increase the capacity of the place with affordable prices. Decide according to your budget and the overall look you want to achieve.

# 05.BASIC

German Made, 8mm class 32, good for bedrooms. Low budget

## 07. Open pores as a key factor

Thanks to these open pores, the air circulates in a special way. The floor absorbs humidity and can release it again. With a sustainable effect: the wood filters out pollutants from the air during this process. Cleaning with warm water and wood floor soap gives the floor additional moisture, which also has a positive effect on the indoor air. In parallel, the soaps high fat content ensures that fine dust particles can be easily wiped away. Especially people with allergies benefit from these advantages. In addition, the ecological natural wood floors bring a special cosiness and pleasant climate into living.

08.

## *Wood Source*

It's made with a selection of different types and grains of woods and placed together to create a look of a pattern. There is no limit as to what size or type of pattern can be placed in a room, which may result in the home owner having many more options than the standard types and grains of wood to choose for a beautiful, finished look.

# 09.BASIC XL

Same as Basic + but a wide wood plank. For a fancy and authentic wood look. It has the most authentic wood look among 8mm floorings but still for a good price

Combines the groove style with wider and fancier German-made planks. The most authentic style among 8mm floors class 32 in attractively competitive prices.
